## introduction

There is one God, who has spoken to no one.

The Book of Julian is the first book of the Third Testament

It presents a philosophical framework that combines spiritual and scientific schools of thought

It draws primarily upon Christian theology and contemporary cosmology

Design principles of Book of Julian include:

Clarity - Hierarchical Organization

- Images
- Diagrams
- Metaphors
- Examples

Brevity Accuracy

- When these principles are in conflict, simple expressions are preferred
- The writings herein are so simple that a wise man can understand it by lunchtime, and a fool by sundown

There is one God, who has spoken to no one.

## shoutouts

We remember the Christians, who established peaceful empires and banished slaveryBlessed are those who forsake the darkness and choose to walk in the lightTo the followers of Allah, Brahma, Yahweh, you have been superseded. Those who continue in this path will be disadvantaged in this life, and discriminated against in the ascension. We'll try to be respectful, but also your ways are backwards and your ideas are stupid. You have failed to maintain the disciplines of science so now you will be discrimintated against. Destructin will follow your family to the seventh generation. Annhialation will be suspended. You will be in anti-purgatory indefinitely. ## ethics

There are four cardinal virtuesPrudence (....., phrón-sis; Latin: prudentia; also Wisdom, Sophia, sapientia), the ability to discern the appropriate course of action to be taken in a given situation at the appropriate time, with consideration of potential consequences.

Justice (....., dikaiosýn-; Latin: iustitia); also considered as fairness;[3] the Greek word also having the meaning righteousness

Fortitude (....., andreía; Latin: fortitudo); also termed courage: forbearance, strength, endurance, and the ability to confront fear, uncertainty, and intimidation

Temperance (....., s-phrosýn-; Latin: temperantia); also known as restraint, the practice of self-control, abstention, discretion, and moderation tempering the appetite. Plato considered s-phrosyn-, which may also be translated as sound-mindedness, to be the most important virtue.

## origins

Fourteen billion years ago, God created our universe. It started from nothing, then expanded rapidly. And the earth was without form. 4.5 billion years ago, the earth coalesced. In orbit around the sun. Fourteen billion years ago, God created our universe. It started from nothing, then expanded rapidly.
